

We listen to 90.7 fm KLOVE. It is the only station our whole family can listen to and enjoy together. I know there are many other listeners in this area that enjoy this station as well. We would greatly miss it if it were taken off the air due to LPFM service. Christians and non christians benefit from this positive and encouraging station. We hope you will not force this station off the air...there is no other one like it to listen too.
